Education

National Institute of Technology Rourkela

Bachelor of Technology in Food Processing Engineering

Aug. 2025 – Aug. 2029

Rourkela, Odisha

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, C, C++, Python

Developer Tools: Git, GitHub, Vite, VS Code, Figma, Canva, Microsoft Excel, Power BI

Frameworks / Libraries: React.js, Tailwind CSS, CesiumJS, Node.js, Express.js, REST APIs

Experience

AI Consulting Intern

May 2026 – Present

Optylize (New Delhi, Remote)

- Spearheaded research into AI adoption across 45+ MSMEs, mapping critical market trends and core deployment strategies.
- Formulated 5+ executive consulting deliverables and strategic market reports by analyzing dense enterprise datasets.
- Engineered analytical frameworks to evaluate AI-driven software, optimizing client pitching cycles.

Web Developer

WebWiz, NIT Rourkela

- Built 8+ responsive user-interface modules across student portal applications using React.js and JavaScript.
- Managed repositories using a Git-flow pipeline to streamline deployment cycles and eliminate merge overhead.
- Executed structural code audits and frontend optimization sprints that improved loading speeds by 15%.

Developer

Google Developer Student Clubs (GDSC), NIT Rourkela

- Architected interactive web applications and structured software labs for a community of 150+ campus developers.
- Sharpened component layout workflows by resolving key architectural scale constraints within active design sprints.

Designer & Junior Analyst

Analytics and Consulting Club, NIT Rourkela

- Deconstructed 6 corporate business case studies to draft analytical models used directly in club advisory solutions.
- Created 25+ brand-aligned presentation assets and UI mockups in Figma, elevating user engagement scores by 20%.

Projects

LEO WATCH | *React.js, CesiumJS, Tailwind CSS*

- Developed an interactive 3D orbit console for satellite and space-debris tracking with Team Delta.
- Integrated the CesiumJS globe and orbital paths, with telemetry displays and conjunction risk alerts.
- Contributed frontend development and backend support; shortlisted in the SIH 2026 internal round.
- **Live Demo:** LEO WATCH

LifeQuest | *React.js, Tailwind CSS, State Management*

- Built the RPG productivity frontend with quest cards, XP/Gold rewards, streaks, and character progression.
- Designed and deployed with Team Delta-X in 24 hours at Tech Zephyr 4.0, IIT Bhubaneswar.
- **Live Demo:** LifeQuest

Chef Groq | *React.js, Tailwind CSS, Groq API*

- Designed and developed a responsive recipe generator that turns available ingredients into meal ideas.
- Integrated the Groq Cloud Llama 3 API to generate tailored recipes with step-by-step instructions.
- Built the ingredient-entry interface and recipe display using React and Tailwind CSS.
- **Live Demo:** Chef Groq

Certifications

McKinsey Forward Program

McKinsey & Company

- Completed an intensive curriculum focused on agile problem-solving methodology, data interpretation, and team workflows.
- **Credential:** Credly Badge
